LANGEN	18

PURPOSE:

The purpose of this booklet is to provide general information to the members of the USAG Darmstadt on the SEPARATE OR RECYCLE TRASH (SORT) program. If you have questions about the program or need more information, please call the DPW, O & M Division, Utilities Branch, DSN 344-7117/6658, CIV. 06151-137-7117/6658.

WHY RECYCLE??

Regular household refuse consists of two main groups. They are recyclable materials and residual refuse, i.e. materials which cannot be reused or recycled and need to be disposed of at the landfill. In Germany, the laws concerning waste disposal have become very strict over the past years and the Army needs to comply with them. A German, for example, produces 92 lbs of refuse per year; while the amount of refuse produced by an American during the same period is 283 lbs. We have to reduce the amount of refuse generated and we can only do that if we separate and recycle our trash every day.

EACH YEAR THE USAG DARMSTADT SPENDS APPROXIMATELY
\$800,000.00 ON SOLID WASTE DISPOSAL!!
ALL UNSORTED DUMPSTER COSTS \$200,000.00
MORE TO DISPOSE OF!!

SOLID WASTE DISPOSAL COMES OFF THE TOP OF EACH YEAR'S BUDGET FOR OTHER ENGINEER SUPPORT SERVICES. WOULDN'T YOU LIKE TO SEE THAT MONEY PUT INTO FACILITIES INSTEAD OF THE GARBAGE? HELP THE ENVIRONMENT BY REDUCING LANDFILL / INCINERATOR LOADS AND REDUCING RAW MATERIALS REQUIRED IN NEW PRODUCTS!

BESIDE, RECYCLING IS EASY ...

Dear Resident:

Recycling has become very important, because landfill space is reduced, disposal fees are raising and awareness of the value of the materials we use for packaging has increased. There are laws and regulations we have to follow including USAREUR Regulations and the German Recycling, Waste Managing Law to name a few. Recycling efforts are important to the U.S. Army, our community and Germany, really, to everybody. First of all, there is the responsibility of each individual for the future. Actually, we all are creating the future we have to share. We have to keep peace with nature, which is a synonym for life. The environment and nature are part of us and we are part of them. Environmental cleanliness leads to human cleanliness in both, body and mind, besides just saving money!

Every organization, soldier, family and civilian living or working within the U.S. ARMY GARRISON DARMSTADT will follow the recycling policy and recycling procedures to contribute to this goal. The goal is preserving the environment for a better life in the future, keeping peace with the nature and last, but not least, SAVING DOLLARS. If you have questions about our SORT program, please contact DPW, Utilities Branch, DSN 344-7117/6658 or CIV. 06151-137-7117/6658. Thank you!

SORTING AT THE WORKPLACE

The SORT Program needs to be implemented at units/office that does administrative work.

HERE ARE A FEW TIPS TO HELP YOU GET STARTED:

Involve managers.

Appoint a recycling coordinator.

Assess your situation

*What kind of waste does your office/unit generate?

*What is recyclable?

*Where is a good place to store your recyclables?

*What kind of containers do you use to collect your recyclables?

*How will you get the recyclables to the containers?

Educate staff/ soldiers on how the SORT Program works

The SORT Program needs to include other recyclables besides paper, glass, metals and plastics.

SORTING AT HOME

HOW TO GET STARTED

The participation of every organization, soldier, family member and civilian living and working in our communities is needed to make the SORT Program a success.

The following tips will help you to make recycling as easy as possible.

GET ORGANIZED

Find a place to store your recyclables. This could be under the kitchen sink, in a closet or in the garage. Collected plastics and metals can usually be stored in the same container. To store your recyclables you can use paper bags or a cardboard box. Plastic containers are good, too, because they can be used over and over again. Such containers can be purchased at AAFES and on the economy. Get all your family members involved Kids who are old enough to take the trash outside should know about separating and recycling trash. Make sure the size of the containers used for your recyclables is right for you, i.e. the containers are not too heavy and can be easily carried. Remember that your recyclables must be completely empty before you put them into the containers.

FIND RECYCLING CONTAINERS LOCATED IN YOUR AREA:

If you live on-post, in barracks, or in Army family housing, you're local DPW, Utilities Branch has all the information you need. If you live on the economy, ask your landlords and neighbors about the local sorting requirements and whether you need special bags or containers for recycling. Some translations are provided below to help you understand the signs on the containers you will find for recycling.

English

Paper (old)
White/clear glass
Brown glass
Green glass
Blue glass

Blechdosen
Kunststoff
Batterien
Medezin
Bio-Tonne
Altkleider (Kleiderspende)
Sperrmüll
Wertstoffe

TIPS FOR REDUCING WASTE

The best way to reduce waste is to avoid it in the first place.
Buy reusable products and avoid disposable goods.
Buy, maintain and repair durable products.
Reuse boxes, containers, paper and other items.
Select products with the least wasteful packaging.
Buy products that can be recycled.
Buy non-hazardous products for the home
Borrow, rent, or share things you don't use very often.

AT HOME

Avoid using paper or Styrofoam dishes. Use washable utensils and dishes for picnics and parties. Use razors with replaceable blades. Use cloth napkins instead of paper ones. Use a sponge instead of paper towels. Use rechargeable batteries and buy rechargeable appliances when possible. Buy durable furniture, luggage, sporting goods and tools that will last longer. Reuse newspaper, packing peanuts and bubble wrap to ship your next packages. Reuse gift boxes, ribbon, tissue and large pieces of wrapping paper. Avoid using cleaning products made with toxic chemicals. Sell or donate leftovers. Offer unwanted paint, cleaners, etc. to the neighbors. Give old clothing to charities. Have a yard sale.

AT THE OFFICE

Instead of using disposable cups, take a ceramic mug or glass to work. Reuse scrap paper. Staple sheets together and make note pads. Make copies on both sides of the paper. Share newspapers and professional magazines with co-workers. Re-label old file folders instead of using new ones. Print drafts on the back of scrap paper. Bring your lunch to work in reusable containers instead of plastic bags. Use sturdy utensils and dishes for office parties instead of disposables. Don't stock disposable plates and cups in the office. Implement waste avoidance and reduction procedures. Educate a co-worker!

WHEN SHOPPING

Purchase beverages in returnable bottles/cases. Reuse your paper bags from the commissary. Use Canvas or mesh string bag when you go shopping. If you only buy one or two items, don't use a bag. Avoid buying products with wasteful packaging like bubble wrap, plastic seals and cardboard packaging. Buy fresh products sold without packaging. Avoid using plastic bags for only a couple of items. Ask baggers not to double or triple wrap your purchases. Buy large or economy size items when available. Don't buy single serving items. Buy concentrates for juices, detergents and automobile windshield wiper fluid. Buy products that are made of recycled materials.

PAPER AND CARDBOARD RECYCLING

DO

Newspaper
White/colored paper
Legal pads
Junk mail
Post-it-Notes
Envelopes
Computer paper
Brown paper bags
Cardboard (folded boxes)
Adding machine tape
Magazines/catalogues
Telephone books
Shredded paper
Paper egg carton
Gift-wrapping paper
Cereal boxes (without bag)

DON'T

Photographic paper
Envelopes with plastic padding
Wax-coated cardboard
Wallpaper
Metallic wrapping paper
Disposable diapers
Food-soiled paper plates
Juice cartons
Milk cartons
Wax paper
Plastic coated paper
soiled paper towels
dirty facial tissue
Carbon paper

Cardboard or paper soiled with food or liquid are NOT RECYCLABLE.

Don't use plastic bags to store or throw away recyclable paper.

MOVING BOXES AND PACKING MATERIALS

When you receive your household goods, and if they are unpacked by the "Movers", they are obligated to take your carton and crates. If you unpack your household goods yourself, call your Moving Company to pick up your boxes and crates. Call your local transportation office, if you have any questions.

GLASS RECYCLING

DO

Beer bottles
Soda bottles
Juice bottles
Glass food jars
Wine & liquor bottles
Drinking glasses

DON'T

Bottle caps and corks
Porcelain
Crystal
Stoneware/pottery
Light bulbs
Neon light tubes
Mirrors

SORT GLASS BY COLORS: BROWN, WHITE (CLEAR) AND GREEN (BLUE GLASS GOES IN THE GREEN CONTAINERS). LABELS DO NOT HAVE TO BE REMOVED FROM THE BOTTLES!

YELLOW BAG LIGHTWEIGHT METAL AND PLASTIC RECYCLING

WHAT PLASTICS ARE COLLECTED? Many types of plastic packaging are collected, from outside packaging to plastic bottles. All items must be empty. Remove all food, liquid, dirt, or other particles from containers. Only use the collection bags or containers provided by the counties, cities, and/or the Self-Help Store in your area. Check with your stairwell coordinator or landlord. If you are not sure what to do, please call your local DPW Utilities branch, DSN 344-7117/6658, CIV. 06151-137-7117/6658.

DO RECYCLE

HARD PLASTICS

Plastic sandwich bags
Plastic freezer bags
AAFES shopping bags

Empty detergent bottles
Plastic six-pack rings
Plastic food bags
Plastic soda bottles
Plastic drinking cups
Plastic eating utensils
Plastic dinner plates
Dry-cleaning bags
Potato chip bags
Cereal box liner
Shampoo bottles
Squeeze it bottles
Detergent bottles
Cookie, candy, cracker
Plastic trays
Plastic pre-molded
Packaging Plastic bottle caps

STYROFOAM

Styrofoam & Styrofoam pre molded forms
Bubble packing wrap
Styrofoam cups, plates

Styrofoam meat trays
Styrofoam peanuts

MIXED LAYERED PACKAGING

Water boxes
Milk containers
Vacuum-Sealed wrappings for coffee, cereal
Chips bags
Metallic wrapping paper
Wax paper
Juice boxes
Capri-Sun pouches
Wax coated cardboard

DON'T RECYCLE

Dirty plastic/Styrofoam
Disposable diapers
Plastic toys or other
Dirty fast food containers

LIGHT WEIGHT METAL

DO RECYCLE

Soda/Juice cans
Food cans
Coffee cans
Aluminum foils
Pie-tins (clean)
Frozen food trays (clean)
Scrap metal (small pieces)
Caps to beverage bottles

DON'T RECYCLE

Vacuum wrapped coffee package
Juice cartons
Metallic wrapping paper
Drinking water boxes
Food-soiled aluminum foil
Frozen food trays (Dirty)

Food labels do not have to be removed.

RESIDUAL REFUSE

Any refuse that is not listed as recyclable material has to be disposed of in the household refuse container.

Examples are:

Empty ballpoint/felt-tip pens and markers, cloth/leather remains, audio/video, cassettes, hygiene articles, diapers, rubber products (erasers, bands, etc.), Chalk, cigarette butts/ashes, chewing gum, vacuum cleaner bags, porcelain, Aluminum foil, Domestic BBQ pits, Animal feces

Please do not place your full trash bags next to your refuse container; the contractor will NOT pick them up. Trash bags left out in the open like this might not only attract all kinds of pests, but they do not at all contribute to the appearance of our installations and will have a negative impression on visitors. Let's keep the housing areas clean and healthy. Trash bags belong inside the refuse containers.

BIO CONTAINERS

TO ALL SOLDIERS, FAMILIES AND CIVILIANS LIVING OR WORKING WITHIN THE USAG DARMSTADT COMMUNITY USING THE BIO-WASTE PLASTIC CONTAINERS!

HERE ARE SIX (6) PIECES OF GOOD ADVICE FOR THE COLLECTION OF BIOLOGICAL WASTE IN THE SUMMER TIME, SO THAT YOU ARE NOT OFFENDED BY INSECTS AND BAD ODORS FROM THE BIO-WASTE PLASTIC CONTAINERS:

- 1. PUT THE BIO-WASTE CONTAINERS IN THE SHADE.**
(WARMTH ENHANCES THE DECAY OF BIOLOGICAL WASTE).
- 2. PUT SEVERAL LAYERS OF NEWS PAPERS AND/OR A PIECE OF CARDBOARD ON THE BOTTOM OF YOUR EMPTY BIO-WASTE CONTAINER. THIS RETAINS WATER SO THAT THE BIOLOGICAL WASTE CAN' T ROT.**
- 3. ALSO PUT NEWSPAPER OF SUFFICIENT QUANTITY BETWEEN BIOLOGICAL WASTES THAT IS IN THE CONTAINER.**
- 4. WRAP YOUR KITCHEN WASTES IN NEWSPAPER OR USE PAPER BAGS (COMMISSARY BAGS).**
- 5. ALWAYS KEEP YOUR BIO-CONTAINER AND COLLECTION BUCKET CLOSED, SO THAT INSECTS CAN'T GAIN ACCESS.**
- 6. ALWAYS LEAVE YOUR BIO-CONTAINER READY FOR COLLECTION (BY THE PICK-UP TRUCK) BY 0700 HRS OF THE RESPECTIVE PICK-UP DAY (FOR DATES, SEE PICK-UP SCHEDULE). ALWAYS PUT THE BIO-CONTAINER OUT FOR COLLECTION EVEN IF IT IS ONLY PARTLY FULL!**

WHAT DOES NOT BELONG INTO THE BIO CONTAINERS!

WASTE OIL, ALUMINUM FOIL, ASHES, CELLOPHANE, CARBON PAPER, WRAPPING PAPER, FROM BUTCHERS (FREEZER PAPER), FECES, INK RIBBONS, GLASS, CHARCOAL, HYGIENIC ITEMS, e.g. FACIAL TISSUES, COTTON WOOL, NAPKINS, HANDKERCHIEFS CAT LITTER ON MINERAL BASE, SWEEPINGS, COSMETICS, LEATHER GOODS, METAL, MINERALS, GYPSUM CHINA, STONES, SAND, SOIL, PAPER: COLORED PRINT AND/OR COATED e.g. BOOKS, CATALOGUES, BROCHURES, MAGAZINES, HIGHLY CONTAMINATED VEGETABLE WASTE, PLASTIC, VACUUM CLEANER BAGS WITH CONTENTS, TEXTILES, DEAD ANIMALS, WAX, DIAPERS, COMPOUND MATERIALS: e.g. CARTONS FOR DRINKS, MILK, etc. AND BAGS FOR COOKIES, CIGARETTE PACKS, CIGARETTE FILTERS AND BUTTS.

WHAT BELONGS IN THE BIO CONTAINERS?

FLOWER WASTE, EGG SHELLS, WRAPPING PAPER (NOT COATED), FEATHERS, FISH BONES, GARDEN WASTE: e.g. FLOWERS, PLANTS, LEAVES, STRAW, BRUSHWOOD, BARK, CUT GRASS, PARTS OF HEDGES AND TREES, (DIAMETER SMALLER THAN 10 CM), VEGETABLE WASTE, HAIR, PET LITTER (EXCEPT MINERAL CAT LITTER), UNTREATED WOOD AND WOODEN WASTE (CHIPS OF WOOD, WOOD SHAVINGS, WOOD-WOOL, SAWDUST), COFFEE GROUNDS INCLUDING FILTER PAPER, POTATO PEELINGS, BONES, PAPER TOWELS FOR THE KITCHEN, FOOD SCRAPS (ALSO IF SPOILED), NUT SHELLS, FRUIT SCRAPS (ALSO LEMONS, ORANGES, GRAPEFRUIT, etc.), PAPER: CARDBOARD, NEWSPAPERS OF LIMITED QUANTITY TO ABSORB MOISTURE, BUT NOT COATED, OR COLORED PRINT, PARCHMENT PAPER, LEFTOVER FOOD (ALSO IF SPOILED), TEA GROUNDS, INCLUDING TEA BAGS AND FILTER PAPER.

BULK TRASH

DO

Personal furniture
Wood chairs and tables
Other wooden furniture
Shelves
POV Tires w/Rims
Mattresses
small appliances

DON'T

Tree branches
Wood chips
Shrub cuttings
Cardboard boxes
Government furniture
Car parts, Batteries, Oil, grease, paint
Refrigerators (dispose off privately)

Bulk items will only be picked up during the scheduled pick up dates.
Please see Bulk Trash Pick up schedule.

Areas not in the schedule or if you have any questions on bulk trash collections, PLEASE call DPW, Utilities Branch, DSN 344-7117/6658, CIV. 06151-137-7117/6658.

DISPOSAL OF HAZARDOUS WASTE

POC: DPW, Environmental Division, DSN 344-7988/6258 or BOS GmbH, Mr. Lars Junginger, Handy: 0170-455 3967 if you have any questions concerning hazardous waste disposal.

HOUSEHOLD BATTERIES

Used household dry cell batteries, e.g. for radios, flashlights, cameras, electronics toys, etc., may be brought to the following locations:

1. Self help store – Nathan Hale Depot
2. Commissary – Nathan Hale Depot
3. PX – CFK (Cambrai Fritsch Kaserne)
4. DODD School, B4428 – Lincoln Village

NON-HOUSEHOLD BATTERIES

(such as military batteries used in various equipment) must be disposed of via the unit S-4 at DRMO Mainz-Kastel.

POV LEAD ACID BATTERIES:

Used POV batteries may be disposed of at the AAFES Car Care Centers. Do not just leave them outside; batteries can leak battery acid, this is dangerous to the environment!

WASTE OIL

Tanks for the disposal of any used internal combustion oil, which include both natural and synthetic oil, are located in various motor pools and auto craft shops. Empty oil containers, used oil/fuel files, smaller than 20 inches and small amounts of used oil/fuel contaminated absorbents must be disposed of in the POL Contaminated Solids container. These containers can be found throughout various maintenance areas.

ANTIFREEZE

Tanks for the disposal of any used anti-freeze are located in various motor pools and auto craft shops. Empty anti-freeze plastic containers should be triple rinsed with water and then water/anti-freeze mixture should be disposed of in the same tanks. The clean plastic containers should be recycled in the plastic recycling yellow bags (where available).

NOTE:

The only authorized areas for performing POV maintenance are at the Auto Craft Shops.

CHEMICALS

**PLEASE CONTACT THE BOS GmbH,
DSN 344-6174, HANDY 0170-4553967**

HOUSEHOLD HAZARDOUS MATERIAL/WASTE

Household hazardous material/waste should not be thrown away with the regular trash!

Household hazardous waste includes the following:

BATHROOM & KITCHEN

Air fresheners
Disinfectants
Tub & tile cleaner
Medication
Hair color
Perm solutions
Oven cleaner
Floor wax
Drain cleaner
Ammonia based cleaners

LIVING & STORAGE AREA

Furniture polish
Fabric cleaner
Rug shampoo
Spot remover
Flea spray
Nail polish
Nail polish remover
Mothballs

GARAGE & BASEMENT

Anti-freeze
Car batteries,
Pesticides
Gasoline
Oil
Paints
Car wax
Turpentine
Varnishes

The USAG Darmstadt has drop off/redistribution points at your local Self-Help Stores for usable hazardous household cleaners as well as for paint. They may be taken to the USAG Darmstadt Self-Help Store located at Nathan Hale Depot, Bldg 4132. It is important that these chemicals are in the original container and that this container is in good condition. If you are in need of any type of cleaner or other chemicals, contact your local Self-Help Store to see if they have anything you can use. These items are FREE! Disposal point for waste paint, fluorescent light tubes and aerosol cans is located at the Nathan Hale Depot recycling center. Please call the POC listed above.

Containers for the disposal of **antifreeze/water mixture** are located throughout various maintenance areas and auto craft shops.

Medicine - Expired or unused medicine and over-the-counter or prescription medicine obtained from American facilities may be returned to your local pharmacy. Please call the Medical Clinic for more information.

SAFER & CHEAPER HOUSEHOLD HAZARDOUS SUBSTITUTES

All-purpose cleaner: Mix 1-teaspoon liquid soap, lemon juice or vinegar in 1 qt warm water. Make stronger if desired.

Glass cleaner: Mix 1-teaspoon vinegar or lemon juice in 1 qt. water.
Spray on and use newspaper to wipe off.

Drain cleaner: Put 3 teaspoons baking soda in drain, add 1-cup vinegar.
Pour a pan of boiling water down drain to clear.

Oven cleaner: Clean spills as soon as oven cools using steel wool and baking soda. ~For tough stains add salt. Do not use on self cleaning or continuous cleaning ovens.

Toilet bowl cleaner: Use toilet brush and baking soda or vinegar.

Furniture polish: Mix 1 teaspoon lemon oil in 1 pint of mineral oil or vegetable oil.

Laundry detergent: Use 1/3 less detergent when using water softener.
Add 1/4-cup vinegar to final rinse.

Rug deodorizer & shampoo: Deodorize dry carpets by sprinkling with baking Soda, wait at least 15 minutes and vacuum. Repeat if necessary.

Shampoo: Mix 1 qt. white vinegar and 3 qts. Boiling water. Apply to rug with wet rag, do not saturate rug. Dry thoroughly, and then vacuum.

Roach & ant repellent: Sprinkle baking soda in cabinet edges, around baseboards and cracks.

Flea and tick powder: Put brewer's yeast or garlic in your pet's food. Sprinkle fennel, rosemary or eucalyptus seeds or leaves around sleeping area.

U.S. ARMY GARRISON DARMSTADT BULK TRASH PICK UP
EXCEPT LANGEN (FOR LANGEN SEE PAGE 18) !

<u>BULK TRASH PICK UP WILL BE EVERY OTHER MONDAY</u>	
<u>EXCEPT ON AMERICAN HOLIDAYS!</u>	
Electrical appliances: If small, please bring to the Recycling centers either in Cambrai Fritsch Kaserne behind Bldg No. 4044 (Class VI Store) or Nathan Hale Depot left of the Commissary (exit side).	
Notes:	
<u>1. Please segregate items neatly at the designated pick up location.</u>	
<u>2. Items should be put out ONLY on the night before the scheduled date</u> <u>or no later than 07:00 hrs on the scheduled day!</u>	
<u>3. Failure to follow the above rules may subject the offender to pay</u> <u>for the extra pick up charge!</u>
